Situation

The property occupies a 100% prime retailing position in the heart of the Town centre.

Other retailers in the vicinity include Greggs, EE, WH Smith, TK Maxx, Vodafone, Boots, Toni & Guy, Caffè Nero, Pizza Express, Savers, Starbucks, HSBC, Barclays and Nationwide.

The High Street is the prime retailing pitch of the town and provides a mixture of retail, food, and leisure facilities. The town benefits from the Guineas Shopping Centre, a 450-space car park and a longstanding twice-weekly market.

Description

The property comprises an impressive four storey commercial property of Victorian origin, arranged over basement, ground, first and second floors.

The ground floor predominantly comprises of a well-configured banking hall with offices on the first floor, staff area on the second floor and ancillary accommodation in the basement.

The property has been fitted out by the tenant to their usual corporate style.

There are two separate entrances from the front and one from the rear. In addition, there is an ATM on the outside of the property.

The property benefits from a flat roof to the rear, offering the potential to increase the massing of the property subject to planning permission.

Planning

On 27th March 2024 a Certificate of Proposed Lawful Use or Development was issued by West Suffolk Council. The certificate permits change of use of the property from a bank to restaurant / coffee shop (class E commercial, business and service) without the need for planning permission. This helps establish an alternative use for the property should Lloyds vacate at some point in the future. A copy is available to download from the data room.

Asset Management

Potential exists to exploit the development potential in the future.

Based on the rental devaluation agreed between the vendor and the tenant, £10,281 of the total rent is attributable to the upper parts and the remainder is attributable to the ground and basement.

Therefore, based on the 8.0% purchase yield, this apportions £650,000 to the bank on ground and basement, leaving £120,000 for the upper parts which reflects only £48 per sq ft / £528 per sq metre.

Our research suggests that one- and two-bedroom flats in this location are worth in the order of £140,000 each / £280 per sq ft / £3,012 per sq m. We propose that there is the potential to create 4 flats on the upper parts, subject to planning permission. This would provide a potential future exit value from the upper parts in the order of £560,000.
