Town Centre Developments:

A major boost to Bangor is underway with a planned new Health and Wellbeing Hub. A further development in the town centre reflects increased optimism in the location's growth prospects.

Description

The property comprises a high-quality residential development providing 8 studio apartments, all with their own bathrooms, above a retail unit. The residential area is self-contained with an entrance on Waterloo Street. It is of steel frame construction with brick infill walls, rendered elevations and a concrete roof overlaid with felt.

The Menai Shopping Centre – New £30m Bangor Health Hub:

The Menai Shopping Centre forms the central retail location in Bangor. Totalling some 130,000 sq ft, occupiers include JD Sports, Hays Travel, Three, The Factory Shop, Superdrug and Burger King.

The Menai Shopping Centre was previously anchored by a Debenhams department store. The store is to become a significant health and wellbeing hub with some £30m of investment having been approved by the Betsi Cadwaladr University Health Board and Gwynedd Council. Plans have been submitted to the Health Board and Welsh Government for formal approval. Contracts have been exchanged to sell a long leasehold interest to the Health Board for the Hub and it is anticipated that completion will occur during 2025 once Welsh Government approval has been granted.

The development will provide a significant boost to Bangor city centre with an increase anticipated in footfall within the city centre as a result. It is anticipated that the new Health Hub will open 2025/2026. Please refer to press releases :

Running Costs

There are various costs in operating the residential investment which are non-recoverable. Please refer to the "Burton House Budget" (available to download) which estimates the service charge cost to the landlord for 2024 is £6,025. This will increase slightly in 2025 to £6,214 as the management fee for the communal parts is due to increase from £1,311 to £1,500.

The current owners have appointed a managing agent in relation to residential accommodation. The current charge is 8.34% (+VAT) for the rent collected.

The residential tenants pay directly water/electricity costs. The apartments are heated by electric radiators; there is no gas supply.

Tenure

The interest being sold is freehold.

Tenancies

The residential apartments are let at rents of £550 per month; one apartment is let at £525 per month but is increasing in July also to £550 per month. Hence, the gross annual residential income for an investor will be **£52,800 per annum**.

The retail unit is let to **Sense, The National Deafblind and Rubella Association** on an effective full repairing and insuring lease from 19th October 2020 until 17th October 2027 at a current rent of **£22,500 per annum**. The lease provided for a break clause on 19th October 2025 subject to 6 months' notice; the tenant did not exercise their break option.

Hence, the total gross income for an investor will be **£75,300 per annum**. After deduction of the non-recoverable costs, the net income is **£69,086 per annum**. Should a purchaser appoint a managing agent as opposed to self-manage the residential accommodation, the net income would be £67,764 per annum.

It is suggested that the residential apartments have a capital value in the order of £70,000 per unit, totalling £560,000 vacant possession.

Arrears

There are currently no arrears.
